

Colorwave Graphics announces Green Initiatives Program

As our business grows, we want to do our part to limit the amount of waste going into landfills and minimize our impact on the Earth's climate. So we've launched a series of *Green* initiatives as part of our responsible environmental practices.

Our recycling initiative identifies non-profit groups to help us recycle the clean useable scrap materials normally discarded. If your organization could make use of adhesive-backed vinyl, cardboard, paper or plastic materials **IT CAN BE YOURS FOR FREE!** All that's required is to call our office at 815-397-4293 to be added to a rotational list of recipients. We will periodically contact those participating groups to arrange for a pick-up day and time. It's as simple as that! YOU can help us help save the environment by joining the Colorwave Green Team.

For more information or to see samples of the scrap materials call John Lombardo at 815-397-4293 or visit colorwavegraphics.com.
